

INSIDE YOUR EXHIBIT™

RMA Technologies™ Fun and Creative Electronics™

**Make your display unique and attention getting
with our versatile interactive electronic products!**

Pepsi Fan Can – “Speakers Corner”

Audio Player message prompts user to record message on digital video camera for use by promotional company.

Products included **Audio Discovery Player™** and electronic controls and timer for operation of exhibit and digital video camera.

Interactive Map - Touch LCD Menu with Audio and Multi-colour Map LEDs

User selects College or University Institution by name or city on touch screen and appropriate narrative plays while LED lights on map. Four user stations each with their own map LED colour – red, green, blue and yellow.

Add Music, Sound Effects or Narration!

Make your display or exhibit interactive!

Audio Discovery Player™- Sound Byte Player™

Plays full MP3 stereo, a removable Memory Card allows easy updating of sound tracks and script files to control operation.

Discovery Capacitive Sensor™

Detect a hand or finger behind non-metallic panels to trigger sounds or lighting. Add printed graphics to create simple interactive displays!

RMA Technologies™ designs and builds **Fun and Creative Electronics™** that add interactive excitement to themed play areas, trade show and museum exhibits, or point of purchase displays. We work closely with your staff to produce unique and attention-getting displays using interactive electronics or special mechanisms. Our products will enhance and add excitement to your display and exhibit designs!
